GARANTİ EMEKLİLİK VE HAYAT ANONİM ŞİRKETİ

INDEPENDENT AUDITOR'S REPORT

1. We have audited the accompanying financial statements of Garanti Emeklilik ve Hayat Anonim Şirketi ("the Company") which comprise the balance sheet as at 31 December 2011, and statement of income, statement of changes in equity and statement of cash flow for the year ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

2. Management is responsible for the preparation and fair presentation of the financial statements in accordance with the applicable accounting principles and standards issued based on insurance laws and regulations. This responsibility includes; designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

3. Our responsibility is to express a conclusion on the financial statements based on our audit. We conducted our audit in accordance with standards on auditing issued based on insurance laws and regulations. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independent Auditor's Opinion

4. In our opinion, the financial statements give a true and fair view of the financial position of Garanti Emeklilik ve Hayat Anonim Şirketi as at 31 December 2011, and of its financial performance and its cash flows for the year then ended in accordance with the applicable accounting principles and standards issued (Note 2), based on insurance laws and regulations.

Additional paragraph for the English translation:

5. The effect of the differences between the accounting principles summarized in Note 2 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Company's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

The investment portfolio of the fund is managed by Garanti Portföy Yönetimi AŞ in accordance with the agreement signed between parties. The Company provided share capital advance to the fund amounted to TL 10.000 during its establishment.

As per the resolution of the Board of Directors, the Company has established 3 pension investment funds for groups on 26 January 2005 after taking the approval of Capital Markets Board of Turkey. The investment portfolio of these funds are managed by Garanti Portföy Yönetimi AŞ in accordance with the agreement signed between parties. The Company provided share capital advance to these funds amounted to TL 150.000 during their establishment.

As per the resolution of the Board of Directors, the Company has established 1 pension investment fund on 27 April 2005 after taking the approval of Capital Markets Board of Turkey. The investment portfolio of the fund is managed by Deniz Portföy Yönetimi A.Ş. in accordance with the agreement signed between parties. The Company provided share capital advance to the fund amounted to TL 10.000 during its establishment.

As per the resolution of the Board of Directors, the Company has established 1 pension investment fund on 25 September 2008 after taking the approval of Capital Markets Board of Turkey. The investment portfolio of the fund is managed by Garanti Portföy Yönetimi A.Ş. in accordance with the agreement signed between parties. The Company provided share capital advance to the fund amounted to TL 100.000 during its establishment.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

As per the resolution of the Board of Directors, the Company has established 3 pension investment funds for groups on 6 October 2010 after taking the approval of Capital Markets Board of Turkey. The investment portfolio of these funds are managed by Garanti Portföy Yönetimi A.Ş. in accordance with the agreement signed between parties. The Company provided share capital advance to these funds amounted to TL 150.000 during their establishment.

“Garanti Emeklilik ve Hayat A.Ş. Emanet-Likit Emeklilik Yatırım Fund” has been converted to “Garanti Emeklilik ve Hayat A.Ş. Gruplara Yönelik Hisse Senedi Emeklilik Yatırım” according to the 30 June 2011 dated approval of Capital Markets Board of Turkey. The investment portfolio of the fund is managed by Garanti Portföy Yönetimi A.Ş. in accordance with the agreement signed between parties.

As at 31 December 2011, the Company has sixteen pension investment funds in total (As at 31 December 2010: Fifteen pension investment funds in total).

1.4 Details of the Company’s operations and nature of field activities

As at 31 December 2011, the Company issues policies in life and personal accident insurance branches and contracts in private pension business by conducting its operations in accordance with the Insurance Law No.5684 (the “Insurance Law”) issued in 14 June 2007 dated and 26552 numbered Official Gazette and Private Pension Savings and Investment System Law No.4632 (the “Private Pension Law”) issued in 7 April 2001 dated 4632 numbered Official Gazette and other communiqués and regulations in force issued by the Turkish Treasury based on the Insurance Law and the Private Pension Law.

1.5 Average number of the Company’s personnel based on their categories

The average number of the personnel during the year in consideration of their categories is as follows:

	2011	2010
Key management personnel	20	20
Other personnel	696	619
Total	716	639

1.6 Remuneration and fringe benefits provided to top management

As of 31 December 2011, remuneration and fringe benefits provided to top management such as; chairman and members of the board of directors, managing director and assistant managing director in total amount to TL 4.186.565 (31 December 2010: TL 3.707.859).

1.7 Distribution keys used in the distribution of investment income and operating expenses in the financial statements (personnel expenses, administration expenses, research and development expenses, marketing and selling expenses and other operating expenses)

Known and exactly distinguishable operating expenses are directly recorded under life, non-life or private pension segments in accordance with the 4 January 2008 dated and 2008/1 numbered “Communiqué Related to the Procedures and Principles for the Keys Used in the Financial Statements Being Prepared In Accordance With Insurance Chart of Account” issued by the Republic of Turkey Prime Ministry Undersecretariat of the Treasury. The allocation of non-distinguishable technical operating expenses are determined in accordance with the 9 August 2010 dated and 2010/9 numbered “Communiqué Related to Changes in the Communiqué Related to the Procedures and Principles for the Keys Used in the Financial Statements Being Prepared In Accordance With Insurance Chart of Account” valid since 1 January 2011 and issued by the Undersecretariat of the Treasury. Accordingly, other non-distinguishable expenses, which are not exactly distinguished, are distributed between insurance segments and private pension segment in accordance with the average number of pension contracts and policies issued within last 3 years. The portion of insurance segments is distributed between life and non-life branches in accordance with the average of 3 ratios calculated by dividing “number of the policies produced within the last three years”, “gross premiums written within the last three years”, and “number of the claims reported within the last three years” to the “total number of the policies”, “total gross written premiums”, and the “total number of the claims reported”, respectively.

Garanti Emeklilik ve Hayat Anonim Şirketi

The web page of the Company	:	www.garantiemeklilik.com.tr

There is no change in the aforementioned information subsequent to the balance sheet date.

1.10 Subsequent events

Explanations related to subsequent events are disclosed in Note 46 – Subsequent events.

2 Summary of Significant Accounting Policies

2.1 Basis of Preparation

2.1.1 Basis of Preparation of Financial Statements and Specific Accounting Policies Used

The Company maintains its books of account and prepares its financial statements in accordance with the Turkish Accounting Standards (“TAS”), Turkish Financial Reporting Standards (“TFRS”), and other accounting and financial reporting principles, statements and guidance (collectively “the Reporting Standards”) in accordance with the “Communiqué Related to the Financial Reporting of Insurance, Reinsurance, and Private Pension Companies” as promulgated by the Turkish Treasury based on Article 18 of the Insurance Law and Article 11 of the Private Pension Law.

In Article 4 of the related communiqué; it is stated that procedures and principles related to accounting of insurance contracts, subsidiaries, associates and joint ventures and presentation of unconsolidated and consolidated financial statements together with their explanatory notes which will be announced to the public will be determined by the further communiqués of the Turkish Treasury.

Although the 4th standard of the Turkish Accounting Standards Board (“TASB”) for the ‘Insurance contracts’ became effective on 25 March 2006 for the accounting periods that begin on or after 31 December 2005, it is stated that TFRS 4 will not be implemented at this stage since the second phase of the International Accounting Standards Board project about the insurance contracts has not been completed yet. In this context, “Communiqué on Technical Reserves for Insurance, Reinsurance and Private Pension Companies and the Related Assets That Should Be Invested Against Those Technical Reserves” (“Communiqué on Technical Reserves”) is published in the 7 August 2007 dated Official Gazette, numbered 26606 and became effective on 1 January 2008. Subsequent to the publication of the Communiqué on Technical Reserves, some other circulars and sector announcements which contain explanations and regulations related to application of the Communiqué on Technical Reserves are published. Accounting policies applied for the insurance contracts based on these communiqué, circulars and other sector announcements are summarized on its own caption in the following sections.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Statutory Decree No: 660, which has been become effective and published in the Official Gazette on 2 November 2011, and the Additional Clause 1 of the Law No: 2499 were nullified and accordingly, Public Oversight, Accounting and Audit Standards Institution (the "Institution") was established. As per Additional Article 1 of the Statutory Decree, applicable laws and standards will apply until new standards and regulations be issued by the Institution and will become effective. In this respect, the respective matter has no effect over the 'Basis of The Preparation of Financial Statements" Note disclosed in the accompanying financial statements as of the reporting date.

"Circular Related to the Presentation of Financial Statements", issued by the Turkish Treasury in the 18 April 2008 dated and 26851 numbered Official Gazette, regulates the content of the financial statements to make them comparable with the financial statements of previous periods and the other companies.

2.1.2 Other accounting policies appropriate for the understanding of the financial statements

Preparation of Financial Statements in Hyperinflationary Periods

With respect to the 4 April 2005 dated and 19387 numbered declaration of the Turkish Treasury, the Company restated its financial statements as at 31 December 2004 and prepared opening balances of the financial statements of 2005 in accordance with the "Restatement of Financial Statements in Hyperinflationary Periods" of the Capital Markets Board ("CMB") Communiqué No: 25 of Series XI, "Communiqué on Accounting Standards in Capital Market" published in the Official Gazette dated 15 January 2003 and numbered 25290. Inflation accounting is no longer applied starting from 1 January 2005, in accordance with the same declaration of the Turkish Treasury.

2.1.2 Other accounting policies appropriate for the understanding of the financial statements

Other accounting policies

Information regarding to other accounting polices is explained above in the section of Note 2.1.1 - Information about the principles and the special accounting policies used in the preparation of the financial statements and each on its own caption in following sections of this report.

2.1.3 Functional and presentation currency

The accompanying financial statements are presented in TL, which is the Company's functional currency.

2.1.4 Rounding level of the amounts presented in the financial statements

Financial information presented in TL, has been rounded to the nearest TL values.

2.1.5 Valuation method(s) used in the presentation of financial statements

The accompanying financial statements are prepared on the historical cost basis, except for the financial assets at fair value through profit or loss, available-for-sale financial assets and financial investments with risks on saving life policyholders classified as available-for-sale financial assets which are measured at their fair values unless reliable measures are available.

2.1.6 Accounting policies, changes in accounting estimates and errors

Details of other standards and interpretations adopted in these financial statements but that have had no impact on the financial statements are set out below.

a. New and revised standards affecting presentation and disclosure only

None.

b. New and revised standards affecting the reported financial performance and / or financial position

None.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

c. Standards and Interpretations that are effective in 2011 with no impact on the 2011 financial statements

IAS 24 Related Party Disclosures (as revised in 2009)

IAS 24 (as revised in 2009) has been revised on the following two aspects: (a) IAS 24 (as revised in 2009) has changed the definition of a related party and (b) IAS 24 (as revised in 2009) introduces a partial exemption from the disclosure requirements for government-related entities.

The Company is not government-related entities.

Amendments to IAS 1 Presentation of Financial Statements (as part of Improvements to IFRSs issued in 2010)

The amendments to IAS 1 clarify that an entity may choose to disclose an analysis of other comprehensive income by item in the statement of changes in equity or in the notes to the financial statements.

Amendments to IAS 32 Classification of Rights Issues

The amendments address the classification of certain rights issues denominated in a foreign currency as either equity instruments or as financial liabilities. Under the amendments, rights, options or warrants issued by an entity for the holders to acquire a fixed number of the entity's equity instruments for a fixed amount of any currency are classified as equity instruments in the financial statements of the entity provided that the offer is made pro rata to all of its existing owners of the same class of its non-derivative equity instruments. Before the amendments to IAS 32, rights, options or warrants to acquire a fixed number of an entity's equity instruments for a fixed amount in foreign currency were classified as derivatives. The amendments require retrospective application.

The application of the amendments has had no effect on the amounts reported in the current and prior years because the Company has not issued instruments of this nature.

Amendments to IFRS 3 Business Combinations

As part of Improvements to IFRSs issued in 2010, IFRS 3 was amended to clarify that the measurement choice regarding non-controlling interests at the date of acquisition is only available in respect of non-controlling interests that are present ownership interests and that entitle their holders to a proportionate share of the entity's net assets in the event of liquidation. All other types of non-controlling interests are measured at their acquisition-date fair value, unless another measurement basis is required by other Standards. In addition, IFRS 3 was amended to provide more guidance regarding the accounting for share-based payment awards held by the acquiree's employees. Specifically, the amendments specify that share-based payment transactions of the acquiree that are not replaced should be measured in accordance with IFRS 2 Share-based Payment at the acquisition date ('market-based measure')

Amendments to IFRIC 14 Prepayments of a Minimum Funding Requirement

IFRIC 14 addresses when refunds or reductions in future contributions should be regarded as available in accordance with paragraph 58 of IAS 19; how minimum funding requirements might affect the availability of reductions in future contributions; and when minimum funding requirements might give rise to a liability. The amendments now allow recognition of an asset in the form of prepaid minimum funding contributions. The application of the amendments has not had material effect on the Company's consolidated financial statements.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

The Interpretation provides guidance on the accounting for the extinguishment of a financial liability by the issue of equity instruments. Specifically, under IFRIC 19, equity instruments issued under such arrangement will be measured at their fair value, and any difference between the carrying amount of the financial liability extinguished and the consideration paid will be recognized in profit or loss.

The application of IFRIC 19 has had no effect on the amounts reported in the current and prior years because the Company has not entered into any transactions of this nature.

Improvements to IFRSs issued in 2010

Except for the amendments to IFRS 3 and IAS 1 described above, the application of Improvements to IFRSs issued in 2010 has not had any material effect on amounts reported in the consolidated financial statements.

d. The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective:

Amendments to IFRS 7	Disclosures – Transfers of Financial Assets; Offsetting of Financial Assets and Financial Liabilities
IFRS 9	Financial Instruments
IFRS 10	Consolidated Financial Statements
IFRS 11	Joint Arrangements
IFRS 12	Disclosure of Interests in Other Entities
IFRS 13	Fair Value Measurement
Amendments to IAS 1	Presentation of Items of Other Comprehensive Income
Amendments to IAS 12	Deferred Taxes – Recovery of Underlying Assets
IAS 19 (as revised in 2011)	Employee Benefits
IAS 27 (as revised in 2011)	Separate Financial Statement
IAS 28 (as revised in 2011)	Investments in Associates and Joint Ventures
IFRIC 20	Stripping Costs in the Production Phase of a Surface Mine
Amendments to IAS 32	Financial Instruments: Presentation - Offsetting of Financial Assets and Financial Liabilities

The amendments to IFRS 7 increase the disclosure requirements for transactions involving transfers of financial assets. These amendments are intended to provide greater transparency around risk exposures when a financial asset is transferred but the transferor retains some level of continuing exposure in the asset. The amendments also require disclosures where transfers of financial assets are not evenly distributed throughout the period.

The Company management does not anticipate that these amendments to IFRS 7 will have a significant effect on the Company's disclosures. However, if the Company enters into other types of transfers of financial assets in the future, disclosures regarding those transfers may be affected.

The amendments to IFRS 7 require an entity to disclose information about rights of offset and related agreements for financial instruments under an enforceable master netting agreement or similar arrangement. The new disclosures are required for annual or interim periods beginning on or after 1 January 2013.

IFRS 9 issued in November 2009 introduces new requirements for the classification and measurement of financial assets. IFRS 9 amended in October 2010 includes the requirements for the classification and measurement of financial liabilities and for derecognition.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Key requirements of IFRS 9 are described as follows:

- IFRS 9 requires all recognized financial assets that are within the scope of IAS 39 Financial Instruments: Recognition and Measurement to be subsequently measured at amortized cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortized cost at the end of subsequent accounting periods. All other debt investments and equity investments are measured at their fair values at the end of subsequent accounting periods.

- The most significant effect of IFRS 9 regarding the classification and measurement of financial liabilities relates to the accounting for changes in the fair value of a financial liability (designated as at fair value through profit or loss) attributable to changes in the credit risk of that liability. Specifically, under IFRS 9, for financial liabilities that are designated as at fair value through profit or loss, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. Previously, under IAS 39, the entire amount of the change in the fair value of the financial liability designated as at fair value through profit or loss was presented in profit or loss.

IFRS 9 was amended to defer the mandatory effective date of both the 2009 and 2010 versions of IFRS 9 to annual periods beginning on or after 1 January 2015. Prior to the amendments, application of IFRS 9 was mandatory for annual periods beginning on or after 1 January 2013. The amendments continue to permit early application. The amendments modify the existing comparative transition disclosures in IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors and IFRS 7 Financial Instruments: Disclosures. Instead of requiring restatement of comparative financial statements, entities are either permitted or required to provide modified disclosures on transition from IAS 39 Financial Instruments: Recognition and Measurement to IFRS 9 depending on the entity's date of adoption and whether the entity chooses to restate prior periods.

In May 2011, a package of five Standards on consolidation, joint arrangements, associates and disclosures was issued, including IFRS 10, IFRS 11, IFRS 12, IAS 27 (as revised in 2011) and IAS 28 (as revised in 2011).

Key requirements of these five Standards are described below.

IFRS 10 replaces the parts of IAS 27 Consolidated and Separate Financial Statements that deal with consolidated financial statements. SIC-12 Consolidation – Special Purpose Entities has been withdrawn upon the issuance of IFRS 10. Under IFRS 10, there is only one basis for consolidation, which is control. In addition, IFRS 10 includes a new definition of control that contains three elements: (a) power over an investee, (b) exposure, or rights, to variable returns from its involvement with the investee, and (c) the ability to use its power over the investee to affect the amount of the investor's returns. Extensive guidance has been added in IFRS 10 to deal with complex scenarios.

IFRS 11 replaces IAS 31 Interests in Joint Ventures. IFRS 11 deals with how a joint arrangement of which two or more parties have joint control should be classified. SIC-13 Jointly Controlled Entities – Non-monetary Contributions by Venturers has been withdrawn upon the issuance of IFRS 11. Under IFRS 11, joint arrangements are classified as joint operations or joint ventures, depending on the rights and obligations of the parties to the arrangements. In contrast, under IAS 31, there are three types of joint arrangements: jointly controlled entities, jointly controlled assets and jointly controlled operations.

In addition, joint ventures under IFRS 11 are required to be accounted for using the equity method of accounting, whereas jointly controlled entities under IAS 31 can be accounted for using the equity method of accounting or proportionate accounting.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

IFRS 12 is a disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the disclosure requirements in IFRS 12 are more extensive than those in the current standards.

These five standards are effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted provided that all of these five standards are applied early at the same time.

IFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. The Standard defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The scope of IFRS 13 is broad; it applies to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, except in specified circumstances. In general, the disclosure requirements in IFRS 13 are more extensive than those required in the current standards. For example, quantitative and qualitative disclosures based on the three-level fair value hierarchy currently required for financial instruments only under IFRS 7 Financial Instruments: Disclosures will be extended by IFRS 13 to cover all assets and liabilities within its scope.

IFRS 13 is effective for annual periods beginning on or after 1 January 2013, with earlier application permitted.

The directors anticipate that IFRS 13 will be adopted in the Company's consolidated financial statements for the annual period beginning 1 January 2013 and that the application of the new Standard may affect the amounts reported in the financial statements and result in more extensive disclosures in the financial statements.

The amendments to IAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to IAS 1 require additional disclosures to be made in the other comprehensive income section such that items of other comprehensive income are grouped into two categories: (a) items that will not be reclassified subsequently to profit or loss; and (b) items that will be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis.

The amendments to IAS 1 are effective for annual periods beginning on or after 1 July 2012. The presentation of items of other comprehensive income will be modified accordingly when the amendments are applied in the future accounting periods.

The amendments to IAS 12 are effective for annual periods beginning on or after 1 January 2012. The directors anticipate that the application of the amendments to IAS 12 in future accounting periods may result in adjustments to the amounts of deferred tax liabilities recognized in prior years regarding the Company's investment properties of which the carrying amounts are presumed to be recovered through sale. However, the directors have not yet performed a detailed analysis of the impact of the application of the amendments and hence have not yet quantified the extent of the impact.

The amendments to IAS 19 change the accounting for defined benefit plans and termination benefits. The most significant change relates to the accounting for changes in defined benefit obligations and plan assets. The amendments require the recognition of changes in defined benefit obligations and in fair value of plan assets when they occur, and hence eliminate the 'corridor approach' permitted under the previous version of IAS 19 and accelerate the recognition of past service costs. The amendments require all actuarial gains and losses to be recognized immediately through other comprehensive income in order for the net pension asset or liability recognized in the consolidated statement of financial position to reflect the full value of the plan deficit or surplus.

The amendments to IAS 19 are effective for annual periods beginning on or after 1 January 2013 and require retrospective application with certain exceptions. The directors anticipate that the amendments to IAS 19 will be adopted in the Company's consolidated financial statements for the annual period beginning 1 January 2013 and that the application of the amendments to IAS 19 may have impact on amounts reported in respect of the Company's defined benefit plans. However, the directors have not yet performed a detailed analysis of the impact of the application of the amendments and hence have not yet quantified the extent of the impact.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

On 19 October 2011 the IASB issued an Interpretation, IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine, clarifying the requirements for accounting for stripping costs in the production phase of a surface mine. The Interpretation clarifies when production stripping should lead to the recognition of an asset and how that asset should be measured, both initially and in subsequent periods. The Interpretation is effective for annual periods beginning on or after 1 January 2013 with earlier application permitted.

The amendments to IAS 32 are intended to clarify existing application issues relating to the offsetting rules and reduce the level of diversity in current practice. The amendments are effective for annual periods beginning on or after 1 January 2014.

2.2 Consolidation

The Company has no subsidiaries and affiliates as of balance sheet date.

2.3 Segment reporting

One section is a distinguishable part related to Company's main operations or an economic environment where the Company's risks and benefits arising from its main operations can be distinguished (geographical segment). Since Turkey is the main geographical area that Company operates, segment reporting presented in Note 5 is related to the operations of Company not to the geographical areas.

2.4 Reserves in Foreign Currencies

For the purpose of the financial statements, the results and financial position of each entity are expressed in TL, which is the functional currency of the Company, and the presentation currency for the financial statements. In preparing the financial statements of the Company, transactions in currencies other than TL (foreign currencies) are recognized at exchange rates prevailing at the transaction date. At each balance sheet date, monetary items denominated in foreign currencies are retranslated to Turkish Lira at the rates prevailing on the balance sheet date. Gains and losses arising from exchange rate transactions are recognized in the income statement. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences are recognized in profit and loss in the period in which they are incurred.

2.5 Property, Plant and Equipment

Property, plant and equipment are carried at cost, less any accumulated depreciation and impairment loss.

Gains/losses arising from the disposal of the tangible assets are calculated as the difference between the net carrying value and the proceeds from the disposal of related tangible assets and reflected to the statement of income of the related period.

Maintenance and repair costs incurred in the ordinary course of the business are recorded as expense.

There are no pledges, mortgages and other encumbrances on tangible fixed assets.

There are no changes in accounting estimates that have significant effect on the current period or that are expected to have significant effect on the following periods.

Depreciation for the tangible assets purchased before 1 January 2004 is calculated in accordance with double declining depreciation method at their historical cost. Depreciation for the tangible fixed assets purchased after 1 January 2004 is calculated in accordance with straight-line depreciation method at their historical costs.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Depreciation rates and estimated useful lives are as follows:

Tangible Assets	Estimated Useful Lives (years)	Depreciation Rates (%)
Furniture and fixture	3-10	10-33
Other tangible assets (including leasehold improvements)	5-20	5-20
Tangible assets acquired through finance leasing	4	25

2.6 Investment Properties

As at balance sheet date, the Company does not have any investment property.

2.7 Intangible assets

The Company's intangible assets consist of software. Intangible assets are recorded at cost in compliance with the TAS 38 - Intangible Assets.

The intangible assets are amortized at historical cost based on straight line amortization method by a range of %10 to %50.

2.8 Financial assets

Classification and measurement

A financial asset is any asset that is cash, an equity instrument of another entity, a contractual right to receive cash or another financial asset from another entity; or to exchange financial assets or financial liabilities with another entity under conditions that are potentially favorable to the entity.

Financial assets are classified in four categories; financial assets held for trading, available-for-sale financial assets, held to maturity investments, and loans and receivables.

Effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period.

Financial assets held for trading purpose are measured at their fair values and gain/loss arising due to changes in the fair values of related financial assets are recorded in the statement of income. Interest income earned on trading purpose financial assets and the difference between their fair values and acquisition costs are recorded as interest income in the statement of income. In case of disposal of such financial assets before their maturities, the gains/losses on such disposal are recorded under trading income/losses.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Company provides money, goods or services directly to a debtor with no intention of trading the receivable. Loans and receivables those are not interest earning are measured by discounting of future cash flows less impairment losses, and interest earning loans and receivables are measured at amortized cost less impairment losses.

Held to maturity investments are the financial assets with fixed maturities and fixed or pre-determined payment schedules that the Company has the intent and ability to hold until maturity, excluding loans and receivables.

Held-to-maturity investments are measured at amortized cost using effective interest method less impairment losses, if any.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Available-for-sale financial assets are the financial assets other than assets held for trading purposes, held-to-maturity investments and loans and receivables.

Investments other than held-to-maturity debt securities and held for trading securities are classified as available-for-sale, and are measured at fair value. Available-for-sale investments that do not have quoted prices in active markets and whose fair values cannot be reliably measured are stated at cost. Gains and losses arising from changes in fair value are recognized directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognized in equity is included in the profit or loss for the period. Impairment losses recognized in profit or loss for equity investments classified as available-for-sale are not subsequently reversed through profit or loss. Impairment losses recognized in profit or loss for debt instruments classified as available-for-sale are subsequently reversed if an increase in the fair value of the instrument can be objectively related to an event occurring after the recognition of the impairment loss.

Securities are recognized at the date of settlement.

Specific instruments

Loans to the policyholders are the securitized loans that are used by the policyholders with the security of their saving life insurance policies that have made premium payments throughout the period that is determined by the technical bases related to certified tariffs of saving life policies (this period is 3 years according to general conditions of life insurance). As at 31 December 2011, total amount of loans to the policyholders amounts to TL 246.684 (31 December 2010: TL 369.585).

Financial investments with risks on saving life policyholders are the financial assets invested against the savings of the life policyholders. Financial investments with risks on saving life policyholders could be classified as financial assets held for trading purpose, available for sale financial assets or held to maturity investments by considering the benefits of the policyholders and measured in accordance with the principles as explained above.

When such investments are classified as available-for-sale financial assets, 5% of the difference between the fair values and amortized costs, calculated by using effective interest method, of the financial assets is recorded under equity and the remaining 95% belonging to policyholders is recorded as 'insurance technical provisions - life mathematical provisions'. As at 31 December 2011, 95% of the difference between fair values and amortized costs of those assets backing liabilities amounted to TL 2.956.721 (31 December 2010: TL 4.049.879) is recorded in life mathematical provisions.

Receivables from private pension operations consist of 'capital advances given to pension investment funds', 'receivable from pension investment funds for fund management fees', 'entrance fee receivable from participants' and 'receivables from clearing house on behalf of the participants'. 'Receivable from pension investment funds for fund management fee' are the fees charged to the pension investment funds against for the administration of related pension investment funds which consist of fees which are not collected in the same day. Capital advances given to pension investments funds during their establishment are recorded under 'capital advances given to pension investment funds'. 'Receivables from the clearing house on behalf of the participants' is the receivable from clearing house on fund basis against the collections of the participants. Same amount is also recorded as payables to participants for the funds sold against their collections under the 'payables arising from private pension business'.

Derecognition

A financial asset is derecognized when the control over the contractual rights that comprise that asset is lost. This occurs when the rights are realized, expire or are surrendered.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

2.9 Impairment on assets

Impairment on financial assets

Financial assets or group of financial assets are reviewed at each balance sheet date to determine whether there is objective evidence of impairment. If any such indication exists, the Company estimates the amount of impairment. Impairment loss incurs if, and only if, there is objective evidence that the expected future cash flows of financial asset or group of financial assets are adversely affected by an event(s) ("loss event(s)") incurred subsequent to recognition. The losses expected to incur due to future events are not recognized even if the probability of loss is high.

Receivables from main operations are presented net of specific allowances for uncollectibility. Specific allowances are made against the carrying amounts of loans and receivables that are identified as being impaired based on regular reviews of outstanding balances to reduce these loans and receivable to their recoverable amounts.

The recoverable amount of an equity instrument is its fair value. The recoverable amount of debt instruments and purchased loans measured to fair value is calculated as the present value of the expected future cash flows discounted at the current market rate of interest.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. For financial assets measured at amortized cost and available-for-sale financial assets that are debt securities, the reversal is recognized in the statement of income. For available-for-sale financial assets that are equity securities, the reversal is recognized directly in equity.

Impairment on tangible and intangible assets

On each balance sheet date, the Company evaluates whether there is an indication of impairment of fixed assets. If there is an objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the TAS 36 - Impairment of Assets and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made.

Discount and provision expenses of the period are disclosed in Note 47 - Others.

2.10 Derivative financial instruments

As at balance sheet date, the Company does not hold any derivative financial instruments.

2.11 Offsetting of financial assets

Financial assets and liabilities are set off and the net amount is presented in the balance sheet when, and only when, the Company has a legal right to set off the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by the Reporting Standards, or for gains and losses arising from a group of transactions resulting from the Company's similar activities like trading transactions.

2.12 Cash and cash equivalents

Cash and cash equivalent, which is a base for the preparation of the statement of cash flows includes cash on hand, cheques received, other cash and cash equivalents, demand deposits and time deposits at banks having original maturity less than 3 months which are ready to be used by the Company or not blocked for any other purpose.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

2.13 Capital

As at 31 December 2011, the shareholder having direct or indirect control over the Company is Garantibank which has %84,91 of the outstanding shares of the Company. Other shareholder having direct or indirect control over the Company is Eureko by %15,00 shares of the outstanding shares.

As at 31 December 2011 and 2010, the share capital and ownership structure of the Company are as follows:

	31 December 2011		31 December 2010	
	Nominal Value of the Shares (TL)	Percentage (%)	Nominal Value of the Shares (TL)	Percentage (%)
Türkiye Garanti Bankası A.Ş.	42.456.190	84,91	42.456.190	84,91
Eureko BV	7.500.000	15,00	7.500.000	15,00
Other	43.810	0,09	43.810	0,09
Paid-in Capital	50.000.000	100,00	50.000.000	100,00

Sources of the capital increases during the year

None.

Privileges on common shares representing share capital

None.

Registered capital system in the Company

None.

Repurchased own shares by the Company

None.

2.14 Insurance and investment contracts – classification

An insurance contract is a contract under which the Company accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder. Insurance risk covers all risks except for financial risks. All premiums have been received within the coverage of insurance contracts recognized as revenue under the account caption “written premiums”.

Investment contracts are those contracts which transfer financial risk without significant insurance risk. Financial risk is the risk of a possible future change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable, provided, that it is not specific to a party to the contract, in the case of a non-financial variable.

Saving life products and private pension contracts of the Company are classified as investments contracts in accordance with the above definition. In saving life products, all the premiums received from policyholders are recognized as revenue within the framework of current regulations, portion of the premiums that is transferred to savings on behalf of the policyholders are charged to the profit or loss by recognizing a liability under life mathematical provisions. In private pension contracts, collected contributions of participants is recognized as a liability under “payables to participants”, the same amount is recorded as a receivable under “receivables from clearing house on behalf of the participants” account.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

2.15 Insurance contracts and investment contracts with discretionary participation feature

Discretionary participation feature (“DPF”) within insurance contracts and investment contracts is the right to have following benefits in addition to the guaranteed benefits.

- (i) that are likely to comprise a significant portion of the total contractual benefits,
- (ii) whose amount or timing is contractually at the discretion of the Issuer; and
- (iii) that are contractually based on:
 - (1) the performance of a specified pool of contracts or a specified type of contract;
 - (2) realized and/or unrealized investments returns on a specified pool of assets held by the Issuer; or
 - (3) the profit or loss of the Company, Fund or other entity that issues the contract.

As at balance sheet date, the Company does not have any insurance or investment contracts with DPF.

2.16 Investment contracts without DPF

In the context of the saving life products, if the investment return, obtained from the savings of the policyholders which is invested by the Company, results a lower yield rate than the technical interest rate, the Company compensates the difference; if investment return results higher yield than the guaranteed technical interest rate, the difference is distributed to the policyholders as profit sharing bonus. Due to contractual and competitive constraints in practice, the Company has classified these contracts as investment contracts without DPF.

For such products, investment income obtained from assets backing liabilities is recorded within income statement or equity in accordance with the accounting policies mentioned above; and whole contract is presented as a liability under life mathematical provisions.

2.17 Liabilities

Financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another entity. Financial liabilities of the Company are measured at their discounted values. A financial liability is derecognized when it is extinguished.

Payables from private pension business consist of payables to participants, participants’ temporary accounts, and payables to private pension agencies. The payables to participants is the account in which the contribution of participants that transferred to investments on behalf of private pension contract owners and income from these investments are recorded. The temporary account of participants includes the contributions of participants that have not yet been transferred to the investment. This account also includes the entrance fee deducted portion of the participants’ fund amounts, obtained from the fund share sales occur in the case of system leaves. This account consists of the amounts of participants that will be transferred to other private pension companies or participants’ own accounts. This account means Company’s liabilities to private pension agencies in return of their services.

2.18 Income taxes

Corporate tax

Statutory income is subject to corporate tax at 20%. This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes. If there is no dividend distribution planned, no further tax charges are made.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. The withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The payments can be deducted from the annual corporate tax calculated for the whole year earnings.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods. As at of balance sheet date, the Company does not have any deductible tax losses.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Deferred taxes

In accordance with TAS 12 - Income taxes, deferred tax assets and liabilities are recognized on all taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base, except for the differences not deductible for tax purposes and initial recognition of assets and liabilities which affect neither accounting nor taxable profit.

The deferred tax assets and liabilities are reported as net in the financial statements if, and only if, the Company has a legally enforceable right to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity.

In case where gains/losses resulting from the subsequent measurement of the assets are recognized in the statement of income, then the related current and/or deferred tax effects are also recognized in the statement of income. On the other hand, if such gains/losses are recognized as an item under equity, then the related current and/or deferred tax effects are also recognized directly in the equity.

Transfer pricing

In Turkey, the transfer pricing provisions have been stated under the Article 13 of Corporate Tax Law with the heading of "disguised profit distribution via transfer pricing". The General Communiqué on disguised profit distribution via Transfer Pricing, dated 18 November 2007 sets details about implementation.

If a taxpayer enters into transactions regarding sale or purchase of goods and services with related parties, where the prices are not set in accordance with arm's length principle, then related profits are considered to be distributed in a disguised manner through transfer pricing. Such disguised profit distributions through transfer pricing are not accepted as tax deductible for corporate income tax purposes.

2.19 Employee benefits

Employee termination benefits

In accordance with existing Turkish Labour Law, the Company is required to make lump-sum termination indemnities to each employee who has completed one year of service with the Company and whose employment is terminated due to retirement or for reasons other than resignation or misconduct. The computation of the liability is based upon the retirement pay ceiling announced by the Government. The applicable ceiling amount as at 31 December 2011 is TL 2.805,04 (31 December 2010: TL 2.623,23).

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

The Company reserved for employee severance indemnities using actuarial method in compliance with the TAS 19 - Employee Benefits. The major actuarial assumptions used in the calculation of the total liability as at 31 December 2011 and 31 December 2010 are as follows:

	31 December 2011	31 December 2010
Discount Rate	5,00%	5,10%
Expected Rate of Salary/Limit Increase	4,76%	4,66%

Other benefits

The Company has provided for undiscounted short-term employee benefits earned during the period as per services rendered in compliance with TAS 19 in the accompanying financial statements.

Provision

A provision is made for an existing obligation resulted from past events if it is probable that the commitment will be settled and a reliable estimate can be made of the amount of the obligation. Provisions are calculated based on the best estimates of management on the expenses to incur as of the balance sheet date and, if material, such expenses are discounted to their present values. If the amount is not reliably estimated and there is no probability of cash outflow from the Company to settle the liability, the related liability is considered as "contingent" and disclosed in the footnotes to the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs. If an inflow of economic benefits has become probable, the Company discloses the contingent asset.

2.20 Revenue recognition

Written premiums

Written premiums represent premiums on policies written during the year net of taxes, premiums of the cancelled policies which were produced in prior years and premium ceded to reinsurance companies

Commission income and expense

As further disclosed in Note 2.24, commissions paid to the agencies related to the production of the insurance policies and the commissions received from the reinsurance firms related to the premiums ceded are recognized over the life of the contract by deferred commission income and deferred commission expense in the financial statements.

Commissions to intermediaries accrued during period for the production of private pension contracts are expensed in the related accounting period and are recognized under the pension business technical expense as operational expense.

Furthermore, in life and unemployment branches, income accrual for the profit commissions is calculated over the earnings of reinsurers. Profit commissions should be related to the rates determined by the existing contracts. Profit commissions depend on the Company's past performance and are not directly relevant to the production of the policies. Therefore, they are calculated as at period ends and recognized in the statement of income without subjecting to any deferral.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Interest income and expense

Interest income and expense are recognized in the statement of income using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability. The effective interest rate is established on initial recognition of the financial asset and liability and is not revised subsequently.

The calculation of the effective interest rate includes all fees and points paid or received transaction costs, and discounts or premiums that are an integral part of the effective interest rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability.

Trading income/expense

Trading income/expense includes gains and losses arising from disposals of financial assets held for trading purpose and available-for-sale financial assets. Trading income and trading expenses are recognized as "Income from disposal of financial assets" and "Loss from disposal of financial assets" in the accompanying financial statements.

Dividends

Dividend income is recognized when the Company's right to receive payment is ascertained.

Income from private pension operations

Fund management fee is recognized as income, charged to the pension investment funds against the hardware, software, personnel and accounting services provided, and fee is shared between the Company and the portfolio managers in accordance with the agreement signed between parties. Total of fund management fee charged to the pension investment funds is recognized as "Fund management income" under technical income and portion of the portfolio manager is recognized as "Fund management expense" under technical expenses.

Management fee is levied on contributions of the participants up to %8 and recognized as income.

Entrance fees are received by the Company from participants during entry into the system and for the opening of a new private pension account. Entrance fees charged to the participants could not be higher than minimum wage that is valid on the date of the contract. In Practice and SME plans, a portion of entrance fees are collected in advance or by 12 instalments and a portion of it is deferred on the condition that it does not exceed 5 years. In Prestige, Select and Garanti e-pension plans, entry fee is not taken during the entry but deferred to exit. In case where the participants leave the Company before 5 years, staying period, the deferred portion of the entry fee is charged as penalty. Hence, deferred portions of entry fees are accepted as contingent assets and are not recognized in the financial statements.

The difference in value of the pension investment fund shares, obtained due to capital advance on the date of establishment, to the date of selling of those shares to the participants is recorded in the income statement as "increase in value of capital allowances given as advances".

2.21 Leasing transactions

The maximum period of the lease contracts is 4 years. Tangible assets acquired by way of finance leasing are recognized in tangible assets and the obligations under finance leases arising from the lease contracts are presented under finance lease payables account in the financial statements. In the determination of the related assets and liabilities, the lower of the fair value of the leased asset and the present value of leasing payments is considered. Financial costs of leasing agreements are expanded in lease periods at a fixed interest rate.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

If there is impairment in the value of the assets obtained through financial lease and in the expected future benefits, the leased assets are valued with net realizable value. Depreciation for assets obtained through financial lease is calculated in the same manner as tangible assets.

Payments made under operating leases are recognized in the statement of income on a straight-line basis over the term of the lease.

As at balance sheet date, the Company does not have any leasing transaction.

2.22 Dividend distribution

In the Ordinary General Meeting held on 25 April 2011, it has been resolved to transfer the net profit for the year 2010 amounted to TL 100.040.679 to reserves instead of distributing as dividend.

2.23 Reserve for unearned premiums

According to the Communiqué on Technical Reserves the reserve for unearned premiums represents the proportions of the gross premiums written without deductions of commission or any other allowance, in a period that relate to the period of risk subsequent to the balance sheet date for all short- term insurance policies.

In the case of personal accident insurance, annual life insurance and life insurance which of the renewal date exceeds one year, reserve for unearned premiums is calculated for the portion of the remaining part which is left after deducting savings from gross premium written for the period.

According to the 2009/9 Numbered Circular Related to Application of Technical Reserves issued on 27 March 2009 reserve for unearned premiums is calculated by taking into account that all policies become active at 12:00 at noon and end at 12:00 at noon.

2.24 Reserve for unexpired risks

In accordance with the Communiqué on Technical Reserves, in each accounting period, the companies while providing reserve for unearned premiums should perform adequacy test covering the preceding 12 months in regard with the probability of future claims and compensations of the outstanding policies will arise in excess of the reserve for unearned premiums already provided. In performing this test, it is required to multiply the reserve for unearned premiums, net with the expected claim/premium ratio. Expected claim/premium ratio is calculated by dividing incurred losses (reserve for outstanding claims, net + claims paid, net - reserve for outstanding claims carried forward, net) to earned premiums (written premiums, net + reserve for unearned premiums, net - reserve for unearned premiums carried forward, net). In the calculation of earned premiums; deferred commission expenses paid to the agencies and deferred commission income received from the reinsurance firms which were netted off from reserve for unearned premiums both at the beginning of the period and at the end of the period are not taken into consideration.

If the estimated claim premium ratio exceeds 95% in future periods for the estimated claim premium ratio of insurance branches, the amount calculated multiplying ratio exceeding 95% by net unearned premiums reserve is called net provision for unexpired risk reserve, and the amount calculated multiplying ratio exceeding 95% by gross unearned premiums reserve is called gross provision for unexpired risk reserve. As at 31 December 2011 and 31 December 2010, related test have not resulted any deficiency in the premiums of the Company.

2.25 Outstanding claims reserve

Outstanding claims reserve is provided for outstanding claims incurred and calculated but not actually paid in prior or current period, or outstanding claims for which the related amount is not calculated, carried at estimated value incurred but not reported.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Claims incurred before the accounting periods but reported subsequently to those dates are accepted as incurred but not reported claims ("IBNR"). Except the life branch, the difference between the accrued and defined provision for outstanding claims and the amount determined by Undersecretariat of Treasury by using actuarial chain ladder method is the incurred but not reported outstanding claim amount. In calculation principle process determined by Undersecretariat of Treasury, the collateral amount for the related branch are taken into consideration for incurred but not reported policy amounts for outstanding claims provision, related to the life branch. According to the calculation of incurred but not reported claims related to life branch, the weighted average rate, calculated by dividing the previous years incurred but not reported claims to prior year yearly average policy amount, is taken into consideration and the current year incurred but not reported claims is calculated by multiplying the calculated weighted average rate and current year yearly weighted average guarantee amount. The amounts are calculated over gross amounts. The net amounts are calculated depending on the Company's prevailing related reinsurance agreements. Different calculation method is used for the test of incurred but not reported policy amounts. In the calculation, period-end figures are carried at gross amounts, covering the last 12 months period.

Claims incurred before the accounting periods but reported subsequently to those dates are accepted as incurred but not reported claims. Last five or more than five years' weighted average calculated by dividing total amount of incurred but not reported claims after deducting salvage and subrogation related to these files to premium production of the related years is considered in the calculation of IBNR. As of the current balance sheet date, IBNR is calculated by multiplying weighted average IBNR ratio by the premium production of last 12 months before balance sheet date. For the non-life branches, the amounts calculated both using the testing and actuarial chain ladder method are compared and the higher amount is reflected as incurred but not reported outstanding claims in the financial statements. In this context, Company has TL 4.397.572 incurred but not reported, net outstanding claims reserve in the financial statements as of 31 December 2011 (31 December 2010: TL 3.032.945).

According to the Technical Provisions Regulations, in order to measure the adequacy of outstanding claims reserve related to new branches and adequacy of number of claims determined by actuaries, companies have to prepare outstanding claims reserve adequacy table based on gross amounts in a format designated by the Undersecretariat of Treasury at the end of each fiscal year. Related to the outstanding claims adequacy test done at the year ends, there is no additional provision required as of 31 December 2011 (31 December 2010: None).

2.26 Mathematical provisions

In accordance with the Communiqué on Technical Reserves, companies performing in life and non-life insurance branches are obliged to allocate adequate mathematical reserves based on actuarial basis to meet liabilities against policyholders and beneficiaries for long-term life, health and personal accident insurance contracts. Mathematical provisions are composed of actuarial mathematical provisions and profit sharing provisions.

Actuarial mathematical provisions, according to formulas and basis in approved technical basis of tariffs for over one year-length life insurance, are calculated by determining the difference between present value of liabilities that the Company meets in future and current value of premiums paid by policyholder in future (prospective method). In life insurance where saving plan premiums are also generated, actuarial mathematical provisions consist of total saving plan portions of premiums.

Provision for profit sharing consist of profit sharing calculated in previous years and a certain percentage of current period's income, determined in the approved profit sharing tariffs, obtained from the financial assets backing liabilities of the Company against the policyholders and other beneficiaries for the contracts which the Company is liable to give profit sharing.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

The valuation method used in calculation of the profit to be shared for saving life contracts is the same with the valuation basis of portfolio on which assets on which the Company invests the provisions allocated due to liabilities against the beneficiaries are included in the framework of basis defined in the Note 2.8 above.

2.27 Equalization reserves

In accordance with the 9th article of the “Communiqué Related to Changes in the Communiqué on Technical Reserves for Insurance, Reinsurance and Private Pension Companies and the Related Assets That Should Be Invested Against Those Technical Reserves” issued in 28 July 2010 dated 27655 numbered Official Gazette, the companies have to reserve equalization provision for loans and earthquake guarantees provided in all branches to equalize the possible fluctuations and to cover catastrophic risks including additional guarantees.

Also, in accordance with the related article, equalization reserves should be calculated as 12% of the earthquake and loan net premiums of each year. Amounts paid for non-proportional reinsurance contracts should be considered as premiums ceded in the calculation of net premium. In the non-proportional reinsurance agreements including more than one branch, the amount of premium carried forward per each credit and earthquake branches is calculated with respect to its portion in the total premium amount unless another calculation method is determined by the Company. Allocation of provisions should be continued until it is reached the 150% of the highest amount of net premium written in the last five years. If reserve amount is less than the reserve amount reflected in the prior year's balance as a result of the premium production following the related 5 year-period, the difference is recognized under the other reserve account in equity. The amount transferred to the equity can be taken as reserve, used for capital increase or payment of indemnities. In life insurance providing death benefit, the Company will be using its own statistical data in the calculation of balancing provision. The Companies which do not have data to make the necessary calculations will take the 11% of the death net premium as the earthquake premium and reserve the 12% of this amount. In the case of an earthquake or a loss in the loan branch and related financial year, provisions reserved for loan or earthquake guarantees can be used in the payment of indemnities. If claim is incurred, reinsurers share and the amount(s) less than the exemption limit set out in the agreement will not be deducted against equalization reserves.

According to Circular No:2012/1, “The Circular on the Use of Equalization Reserve and Additional Information about some other Circulars”, it is possible to use the equalization reserve provided for catastrophic claims on the reimbursement of catastrophic claims. Additionally, it is possible to net off the outstanding claims provided, based on expertise report or the documents provided from legal authorities in case of catastrophe, from the equalization reserve. However, the related net off should not be done from current year equalization reserve. Besides, incurred catastrophic claims should be recorded to related technical accounts that incurred catastrophic claims covered from the equalization reserve should be debited from balance sheet account of equalization reserve and credited to the changes in other technical reserves account. On the other hand, it is possible to not to include paid catastrophic claims provided from the equalization reserve to the calculation of IBNR.

Equalization provisions are presented under “other technical reserves” within long-term liabilities in the accompanying financial statements.

2.28 Related parties

For the purpose of the accompanying financial statements, shareholders, key management and members of board of directors together with their families and companies controlled by or affiliated with them, and associated companies are considered and referred to as related parties.

2.29 Earnings per share

In respect of TAS 33, “Earnings Per Share” standard, companies whose stocks are not traded in the stock market, do not have to disclose earnings per share. Since the Company's shares are not traded in the stock market, earnings per share are not disclosed in the accompanying financial statements.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

2.30 Subsequent events

Post-balance sheet events that provide additional information about the Company's position at the balance sheet dates (adjusting events) are reflected in the financial statements. Post-balance sheet events that are not adjusting events are disclosed in the Notes when material.

2.31 Comparative Information and Restatement of Prior Period Financial Statements

Financial statements of the Company have been prepared comparatively with the prior period in order to give information about financial position and performance. If the presentation or classification of the financial statements is changed, in order to maintain consistency, financial statements of the prior periods are also reclassified in line with the related changes. Some classifications have been made for the prior year financial statements, in order to be appropriate with the current year financial statement presentation but there is not any significant classification requires a description.

3 Critical accounting estimates and judgments in applying accounting policies

The Notes given in this section are provided to addition/supplement the commentary on the management of insurance risk Note 4.1 - Management of insurance risk and Note 4.2 - Financial risk management.

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas at estimation uncertainty and critical judgment in applying accounting policies that have the most significant effect on the amount recognized in the financial statements are described in the following Notes:

Note 4.1 - Management of insurance risk

Note 4.2 -Financial risk management

Note 6 - Tangible assets

Note 8 - Intangible assets

Note 10 - Reinsurance assets/liabilities

Note 11 - Financial assets

Note 12 - Loans and receivables

Note 14 - Cash and cash equivalents

Note 17 - Insurance liabilities and reinsurance assets

Note 17 - Deferred acquisition costs

Note 18 - Investment contract liabilities

Note 18- Receivables from private pension operations

Note 21 - Deferred income taxes

Note 23 - Provisions for other liabilities and charges

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

4 Management of insurance and financial risk

4.1 Management of insurance risk

Pricing policies

The pricing policies and principles of the Company are as follows:

- i) While determining risk premiums, the amount of expected losses are considered and premium limits are determined accordingly.
- ii) During the study of pricing activities as a part of developing a new product, working of relevant units together within the Company is maintained by considering the needs of the customers and competition in the market.
- iii) It is aimed to achieve profitability in product basis and providing continuity.
- iv) Results of the pricing studies are compared with the prices of the competitors and international pricing cases.

When the distribution of the products in accordance with the premiums written for each product within last one year is analysed it is observed that premiums written for long term life and saving products have decreased, on the other hand, premiums written for one year term life products have increased. The Company management is in the opinion that this development in the production structure of the Company results positive effect on the profitability ratios. Pricing of the products by considering high profitability has protective effect on the future performance of the Company.

CSO-58, SM-53, CSO-80 and CSO-2001 mortality tables are used in the determination of the prices of life insurance products.

Insurance risk accepted by the Company in accordance with their total amounts and the quantity of the policies are presented in the below table. The Company management believes that the distribution of the insurance risk in terms of their total amounts and quantities are satisfactory.

	31 December 2011		31 December 2010	
	Insurance risk (TL)	Unit	Insurance risk (TL)	Unit
Death	24.353.017.382	3.013.098	22.399.262.305	3.244.866
Disability due to accident	16.952.717.885	2.794.591	15.495.329.477	2.997.297
Disability due to illness	1.639.542.909	579.212	1.368.562.625	545.306
Critical illness	1.366.644.899	67.965	1.212.014.158	81.556
Treatment costs due to accident	1.408.249.277	778.425	851.756.611	509.596
Involuntary unemployment	489.208.797	526.774	476.953.406	517.319
Death due to accident	300.225.339	13.193	142.796.894	3.291
Unemployment/Daily hospital benefit	92.319.942	372.438	102.395.973	371.752
Permanenet disability benefit	91.090.000	9.109	-	-
Unemployment/ Temporary disability benefit	14.881.750	48.788	5.607.250	22.367

The Company gives importance to the diversification of the insurance risk.

Risk evaluation policies

The Company uses leader reinsurer's medical risk evaluation tools in its risk assessment processes. Each year check-up limits are reviewed and revised in accordance with the historical statistics. Besides, the Company also performs 'Medical' risk evaluation through the Company's medical doctor, 'Moral' risk evaluation through its risk evaluation and selling staff, and 'Financial' risk assessment for private applications and the credit life insurances developed against bank loans.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Medical risk assessment

Medical risk assessment is the first step of risk assessment process. In order to learn and evaluate the health positions of the customers, they are requested to do check-up test in accordance with the conditions determined based on the amount of insured risk. Within this context, first evaluation is performed by the Company's medical doctor through medical assessment. Applicants carrying medical risk factors are rejected in accordance with the terms of agreement with reinsurers.

Moral risk assessment

In the second step of the risk assessment process, information about the customers' gender, living conditions, residence and the occupational information is obtained. During this process, sales force of the Company is expected to support related units of the Company for suspicious circumstances of the customers which are re-assessed.

Financial risk assessment

In the third step of the risk assessment process, requirement for customers' request for the amount of life insurance limits and their annual income or the amount of the loans requested from the banks being equal to each other is analysed. Since 90% of the Company's portfolio consists of bank products, total amount of insured risk is expected to match with the total amount of banks' credit risks. Evaluation of the credit risks of the customers by the banks as a part of their credit facilities is an important step for the Company's financial risk assessment process.

Operational risk management

The network between the Company's information system and T. Garanti Bankası A.Ş.'s information system, main distribution channel of the Company, has been established which provides all applications and all policy processes to be followed by the Company through its system. Within the claim payment process of the Company, all documents are followed by the electronic archiving system by keeping the original ones.

Reinsurance policies

The Company cedes risk based life insurance policies (death and other additional insured risks) through the reinsurance of the risks. Since technical profitability of risk based life insurance policies is high, maximum retention amount determined based on actuarial calculations is held by the Company in its conservation and the amount exceeding maximum retention amount is ceded to reinsurance companies through surplus treaties. On the other hand, the Company keeps less risk in its conservation for uncertain risks (such as critical illness).

In the case of life loss, disability resulted by accident, for employees to remain unemployed in private sector, hospitalization of self employed; quota share reinsurance treaty with reinsurance share ratio of 100% is contracted for the unemployment insurance which provides income guarantee in each insurance year.

Moreover, each year the Company signs excess of loss reinsurance contracts to protect its conservation for catastrophic damages such as earthquake, flood, major public transportation accidents, major natural disasters or terrorist attacks.

Reinsurance companies

The Company works with reinsurance companies in order to afford reinsurance assurance related to other collateral guarantee given under the life insurance and non life insurance branches for preservation of financial structure and allocation of professional risk considering the existing and varying product structure. In this context, Company's job acceptance capacity and elasticity are increased with the reinsurance agreements in 2011 and it is provided that the risk is spreaded to different reinsurers by working with different reinsurance companies. Serving to customers with different product structures is intended by working with varying reinsurers. Additionally, the Company gets opportunity to follow the developments in insurance sector closely.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

The decisive criteria for the relationship with reinsurers are as follows:

- i) Financial strength,
- ii) Long-term business relationship approach,
- iii) Competitive prices
- iv) Capacity provided for facultative and un-proportional (catastrophic) reinsurance contracts.
- v) Opportunities and information provided in risk assessment process, product development, trainings, information about new developments in the sector and etc.

Performance of the reinsurance companies in treaty agreements is evaluated for each year by considering the payment performance of the reinsurers for the claims paid and other due payables to the Company. Performance of the reinsurance companies in facultative agreements is evaluated by considering capacity provided to the Company, speed in operational reinsurance transactions, and technical and market information provided to the Company. In case where the performance of the reinsurer is not assessed as adequate, the Company decides on to engage with alternative reinsurance companies.

As a result of stable and consistent pricing and risk acceptance policies, risk assessment policies and conditions agreed with the treaty reinsurers enable the Company to insure the risk in higher amounts than the market averages.

Münchener Rückversicherungs AG (“Munich Re”), located in Munich, is the leader reinsurance firm of the Company for life insurance policies. Milli Reasürans TAŞ (“Milli Re”) is the second reinsurance firm in terms of its reinsurance share. The third big reinsurance firm is Mapfre Re, Compañia de Reaseguros, SA, (“Mapfre Re”) located in Madrid. And, fourth reinsurance firm is French based company SCOR VIE.

In unemployment insurance, the Company has engaged quota share reinsurance treaties with 100% reinsurance share ratio with BNP Paribas Cardiff Hayat Sigorta AŞ (“Cardif”) starting from second quarter of 2008 and Lighthouse General Insurance Company Limited (“Lighthouse”) starting from the second half of 2009.

Recent ratings of these companies given by international institutions are as follows:

Reinsurer	Standard & Poors			AM Best		
	Rating	Outlook	Date	Rating	Outlook	Date
Munich Re	AA-	Stable	5 April 2011	A+	Stable	11 October 2010
Milli Re	trAA	-	4 August 2011	B++	Stable	20 September 2011
Scor Global Re	A	Pozitive	27 April 2011	A	Stable	26 April 2011
Mapfre Re	AA (*)	Negative	15 October 2011	A+	Negative	14 December 2011
Mapfre Re	AA(*)	Negatif	15 Ekim 2011	A+	Negatif	14 Aralık 2011

(*) The rating of Mapfre Re is updated to A Negative on 17 January 2012 report.

The Company’s ratings, provide information about the tracking the financial structure of companies, allow monitoring the sustainability of long term business relationship, and the minimum capital determination is done related to the communiques on financial structure and capital adequacy of insurance, reinsurance and pension fund companies.

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

4.2 Financial risk management

Introduction and overview

This note presents information about the Company's exposure to each of the below risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors monitors the effectiveness of the risk management system through the internal audit department.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

Credit risk

Credit risk is basically defined as the possibility that a counterparty will fail to meet its obligations in accordance under agreed terms of a contract. The main financial statement balances that the Company has credit risk exposure is as follows:

- cash at banks
- other cash and cash equivalents
- available for sale financial assets
- financial assets held for trading
- investments with risks on policyholders
- premium receivables from policyholders
- receivables from intermediaries (agencies)
- receivables from private pension operations; receivables from pension investment funds and participants
- receivables from reinsurance companies related to claims paid and commissions accrued
- reinsurance shares of insurance liabilities
- due from related parties
- other receivables

Financial assets subject to credit risk of the company mainly consist of eurobonds issued by the Republic of Turkey Government and private sector bills; time and demand deposits held in banks and financial institutions of Turkey. These receivables are not to be considered as having high credit risk.

Reinsurance contracts are the most common method to manage insurance risk. This does not, however, discharge the Company's liability as the primary insurer. If a reinsurer fails to pay a claim for any reason, the Company remains liable for the payment to the policyholders. The creditworthiness of reinsurers is considered on an annual basis by reviewing their financial strength prior to finalization of the reinsurance contract.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Net carrying value of the assets that is exposed to credit risk is shown in the table below:

	31 December 2011	31 December 2010
Receivables from main operations (Note 12)	2.414.708.552	1.894.755.656
Cash and cash equivalents (Note 14)	500.187.457	354.616.351
Financial assets and financial investments with risks on policyholders (Note 11)	56.264.640	79.937.572
Reinsurer share in outstanding claims reserve (Note 10), (Note 17)	8.408.950	8.970.526
Due from related parties (Note 12)	3.712.017	2.887.203
Other receivables	47.036	68.437
Total	2.983.328.652	2.341.235.745

As at 31 December 2011 and 2010, the aging of the receivables from main operations is as follows:

	31 December 2011		31 December 2010	
	Gross amount	Provision	Gross amount	Provision
Not past due	2.398.661.901	-	1.886.858.018	-
Past due 0-30 days	5.311.113	-	2.886.827	-
Past due 31-60 days	1.832.045	-	681.115	-
Past due 61-180 days (*)	2.791.527	(217.361)	802.940	(122.694)
Past due 181-365 days	1.732.927	(21.541)	1.280.154	(137.487)
More than one year	4.617.941	-	2.506.783	-
Total	2.414.947.454	(238.902)	1.895.015.837	(260.181)

(*) Provision for the impairment of entrance fees which could not be collected yet and other receivables related to the pension operations amounted to TL 217.361 (31 December 2010: TL 122.694) , presented as netted off from receivables from private pension operations in the accompanying financial statements.

The Company cancels any life premiums that are accrued but not collected within a certain period of time, and deducts them from the premium income and from the receivables from insurance activities.

The Company books provision for the portion of entry fee receivables which is accrued during the entry and will be collected in maximum 12 instalments. This portion consists of accumulated participant amount of the participants and amount that can not be offset.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet cash commitments associated with financial instruments.

Management of the Liquidity Risk

The Company considers the maturity match between asset and liabilities for the purpose of avoiding liquidity risk and ensure that it will always have sufficient liquidity to meet its liabilities when due.

The following table provides an analysis of assets and liabilities of the Company into relevant maturity groupings based on the remaining periods to repayments:

31 December 2011	Net Book Value	Unallocated	No Maturity	Up to 1 month	1 to 3 Month	3 to 6 month	6 to 12 month	More than 1 year
Cash and cash equivalents	500.187.457	-	3.749.389	104.547.670	285.969.813	105.920.585	-	-

Market risk

Market risk is the risk that changes in market prices, such as interest rate, foreign exchange rates and credit spreads will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Currency risk

The Company is exposed to currency risk through its transactions denominated in foreign currencies.

Foreign exchange gains and losses due to foreign currency denominated transactions are recognized in the period of the transaction. Monetary assets and liabilities denominated in foreign currencies are measured at the exchange rates ruling at balance sheet date with the resulting exchange differences recognized in the statement of income as foreign exchange gains or losses.

The Company's exposure to foreign currency risk is as follows:

31 December 2011	US Dollar	Euro	Other Currencies	Total
Cash and cash equivalents	13.607.568	4.642	-	13.612.210
Financial assets and financial investments with risks on policyholders	24.715.155	6.222.290	-	30.937.445

Financial assets and financial investments with risks on policyholders	29.282.414	5.471.884	-	34.754.298
Receivables from main operations	2.924.996	88.174	6.180	3.019.350
Total foreign currency denominated assets	38.462.468	5.560.065	6.180	44.028.713
Payables arising from main operations	(54.928)	(28.654)	(1.050)	(84.632)
Insurance technical provisions	(2.163.284)	(558.898)	(19.600)	(2.741.782)
Investment contract liabilities	(32.710.520)	(5.196.755)	-	(37.907.275)
Total foreign currency denominated liabilities	(34.928.732)	(5.784.307)	(20.650)	(40.733.689)
Balance sheet position	3.533.736	(224.242)	(14.470)	3.295.024

TL equivalents of the related monetary amounts denominated in foreign currencies are presented in the table above.

Transactions denominated in foreign currencies are recorded at the exchange rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are measured as TL at the purchasing exchange rates announced by the Central Bank of Turkey ruling at 31 December 2011. Only life mathematical provisions and loans to the policyholders are measured at effective selling rates announced by the Central Bank of Turkey as disclosed on the face of policies.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Foreign exchange rates used for the translation of foreign currency denominated monetary assets and liabilities as at balance sheet date are as follows:

31 December 2011	US Dollar	Euro
Foreign currency rate used in translation of balance sheet items	1,8889	2,4438
Foreign currency rates used in calculation of life mathematical provision and loans to the policyholders	1,9008	2,4593
31 December 2010	US Dollar	Euro
Foreign currency rate used in translation of balance sheet items	1,5460	2,0491
Foreign currency rates used in calculation of life mathematical provision and loans to the policyholders	1,5558	2,0621

Exposure to currency risk

A 10 percent devaluation of the TL against the following currencies as at 31 December 2011 and 31 December 2010 would have increased or decreased 12 month period of equity and profit or loss (excluding tax effects) by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. In case of a 10 percent revaluation of the TL against the following currencies, the effect will be in opposite direction.

	31 December 2011		31 December 2010	
	Profit or loss	Equity(*)	Profit or loss	Equity (*)
US Dollar	93.009	122.405	317.278	353.374
Euro	(6.046)	(1.144)	27.564	22.424
Others	(1.032)	(1.032)	(1.447)	(1.447)
Total, net	85.931	120.229	288.267	329.503

(*)Equity effect also includes profit or loss effect of 10% devaluation of TL against related currencies.

Exposure to interest rate risk

The principle risk to trading portfolios are exposed is the risk of fluctuations in the fair values of financial instruments because of a change in market interest rate. The principal risk to which non-trading portfolios are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instrument because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for reprising bands.

As at balance sheet date; the interest rate profile of the Company's interest earning financial assets and interest bearing financial liabilities are detailed below:

	31 December 2011	31 December 2010
Fixed income financial assets		
Financial assets with fixed interest rates:		
Banks (time deposit) (Not 14)	489.471.023	343.778.497
Financial investments with risks on policyholders - Available for sale financial assets - eurobonds (Note 11)	30.937.445	34.754.298
Financial assets held for trading purpose - government bonds (Note 11)	1.059	44.235.825
Financial assets held for trading purpose - private sector bills (Note 11)	25.054.880	-
Loans to the policyholders (Note 12)	246.684	369.585
Financial assets with variable interest rates:	-	-
Non-fixed income financial assets:		
Financial assets held for trading purpose - investment funds (Note 11)	8.035	684.228
Financial liabilities:	None	None.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Interest rate sensitivity of financial instruments

Interest rate sensitivity of the statement of income is the effect of the assumed changes in interest rates on the fair values of financial assets at fair value through profit or loss and on the net interest income as at and for the year ended 31 December 2011 and 31 December 2010 of the floating rate non-trading financial assets and financial liabilities held at 31 December 2011 and 31 December 2010. Interest rate sensitivity of equity is calculated by revaluing available-for-sale financial assets at 31 December 2011 and 31 December 2010 for the effects of the assumed changes in interest rates. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The table below demonstrating the effect of changes in interest rates on statement of income and equity excludes tax effects on related loss or income.

31 December 2011	Statement of income		Equity(*)	
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease
Financial assets held for trading purpose	(16.176)	16.334	(16.176)	16.334
Financial investments with risks on policyholders (Available for sale financial assets)	-	-	(50.859)	55.308
Total, net	(16.176)	16.334	(67.035)	71.642
31 December 2010	Statement of income		Equity(*)	
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease
Financial assets held for trading purpose	(534.615)	546.629	(534.615)	546.629
Financial investments with risks on policyholders (Available for sale financial assets)	-	-	(56.151)	60.964
Total, net	(534.615)	546.629	(590.766)	607.593

(*) Equity effect also includes 100 base point (bp) effect of increase and decrease in interest rates on profit or loss.

Fair value information

The estimated fair values of financial instruments have been determined using available market information, and where it exists, appropriate valuation methodologies. The Company has classified its financial assets as whether held for trading purpose or available for sale and measured its financial assets at their fair values at the end of the year.

Management estimates that the fair value of other financial assets and liabilities are not materially different than their carrying values.

Classification relevant to fair value information

TFRS 7 – Financial instruments: Disclosures requires the classification of fair value measurements into a fair value hierarchy by reference to the observability and significance of the inputs used in measuring fair value of financial instruments measured at fair value to be disclosed. This classification basically relies on whether the relevant inputs are observable or not. Observable inputs refer to the use of market data obtained from independent sources, whereas unobservable inputs refer to the use of predictions and assumptions about the market made by the Company. This distinction brings about a fair value measurement classification generally as follows:

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3: Fair value measurements using inputs for the assets or liability that are not based on observable market data (unobservable inputs).

Classification requires using observable market data if possible. Fair value of financial assets and liabilities shown in the financial statements at fair value are presented below:

	31 December 2011			Total
	Level 1	Level 2	Level 3	
Financial assets				
Available for sale financial assets (Note 11) (*)	-	-	-	(*)
Financial assets held for trading (Note 11)	25.063.974	-	-	25.063.974

Capital management

The Company's capital management policies include the following:

- To comply with the insurance capital requirements required by the Undersecretariat of Treasury;
- To safeguard the Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders;
- To provide an adequate return to shareholders by pricing insurance contracts in line with the level of risk assumed.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

In accordance with the “Circular Regarding the Measurement and Assessment of Capital Adequacy of Insurance, Reinsurance and Private Pension Companies” issued by the Undersecretariat of Treasury on 19 January 2008 dated and 26761 numbered Official Gazette, the Company measured its minimum capital requirement as at 31 December 2011 as TL 77.014.076. As at 31 December 2011, the Company’s total equity in its statutory financial statements amounted to TL 445.663.570 which is above the minimum capital requirement amount.

Other cash and cash equivalents (Note 45)	6.967.045	10.402.216

15 Equity

Paid in capital

As at 31 December 2011 and 2010, the authorized nominal share capital of the Company is TL 50.000.000 and the share capital of the Company consists of 5.000.000.000 issued shares with TL 0.01 nominal value each.

There are not any treasury shares held by the Company itself or by its subsidiaries or associates.

There are not any equity shares issued which will be subject to sale in accordance with forward transactions and contracts.

The shareholder having direct or indirect control over the shares of the Company is Garanti Bankası Group, having 84,91% of the outstanding shares. Another party which have significant influence over the operations of the Company is Netherland basis company Achmea BV (with its old title Eureka BV) ("Achmea") having 15,00% of outstanding shares.

A call option and a put option agreements were also signed between Garanti Bankası and Achmea respecting the Company's outstanding shares on 21 June 2007.

Call option: Achmea has the right to purchase 35% plus one shares of the Company's outstanding shares by a price determined in the agreement, if put option is not exercised. Achmea is not obliged to buy these shares; however Garanti Bankası is responsible for selling the shares in the case of Eureka's request of purchase. Call option can be exercised by Achmea starting from 21 June 2010 till the end of 21 June 2012.

Put option: Achmea has the right to sell all the shares which Achmea has at the exercise date by a price determined between parties in the agreement, if call option is not exercised. Achmea is not obliged to sell these shares, however Garanti Bankası is responsible for buying the shares in the case of Achmea's request of selling. Put option can be exercised by Achmea starting from 21 June 2010 till the end of 21 June 2012.

Garanti Emeklilik ve Hayat Anonim Şirketi

Notes To The Financial Statements As Of 31 December 2011

(Amounts expressed in Turkish Lira (TL) unless otherwise stated).

Legal reserves

The legal reserves consist of first and second reserves, appropriated in accordance with the Turkish Commercial Code ("TCC"). The TCC stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5%, until the total reserve reaches 20% of the Company's paid-in share capital. The second legal reserve is appropriated at the rate of 10% of all cash distributions in excess of 5% of the paid-in share capital. Under the TCC, the legal reserves can only be used to offset losses and are not available for any other usage unless they exceed 50% of paid-in share capital.

	1 January - 31 December 2011	1 January - 31 December 2010
Legal reserves at the beginning of the period	8.777.544	5.018.735
Distribution of profit for the year	1.222.456	3.758.809
Legal reserves at the end of the period	10.000.000	8.777.544

Extraordinary Reserves

	1 January - 31 December 2011	1 January - 31 December 2010
Extraordinary reserves at the beginning of the period	167.345.946	95.928.600
Distribution of profit for the year	98.818.223	71.417.346
Extraordinary reserves at the end of the period	266.164.169	167.345.946

Revaluation of financial assets

The period income and expenses accrued directly under equity as of balance sheet date is presented below:

	31 December 2011	31 December 2010
Interest income from financial assets	342.983	436.102
Deferred tax effect	(68.597)	(87.221)
Fair value reserves at the end of the period	274.386	348.881

16 Other reserves and equity component of DPF

As at 31 December 2011, there is not any other reserves presented under equity except for the fair value reserves of available-for-sale financial assets which is presented as "revaluation of financial assets" in the accompanying financial statements. Movement of fair value reserves of available-for-sale financial assets and their related tax effects are presented in Note 15.

The Company recognizes its liability to the policyholders due to the saving life products, classified as investment contracts, under life mathematical provisions. The Company recognizes its own portion for the unrealized gains and losses, recognized due to change in the fair values of available for sale financial assets backing long term investment contracts under equity within 'revaluation of financial assets'.

Claim development tables

The basic assumption used in the estimation of provisions for outstanding claims is the Company's past experience on claim developments. The Company's management uses the judgment to assess the extent to which external factors such as judicial decisions and government legislation affect the estimates. The sensitivity of certain assumptions like legislative change, uncertainty in the estimation process, etc, is not possible to quantify. Furthermore, because of delays that arise between occurrence of a claim and its subsequent notification and eventual settlement, the outstanding claims reserve is not known with certainty at the balance sheet date. Consequently, the ultimate liabilities will vary as a result of subsequent developments. Differences resulting from reassessment of the ultimate liabilities are recognized in subsequent period financial statements.

Development of insurance liabilities enables to measure the performance of the Company in estimation of its ultimate claim losses. The numbers presented on the top of the below tables show the changes in estimations of the Company for the claims in subsequent years after accident years. The numbers presented on the below of the below tables give the reconciliation of total liabilities with outstanding claims reserve presented in the accompanying financial statements.
