Roughly 8 million children work unregistered on streets, offices and household chores. Back to School has reached over 5.700 working children and their parents at 42 schools and 13 counties in İstanbul, in over 7 years. We intended children to form friendly relations with their schools, by the aid of in-school or out-school academic and social activities with their teachers.

With drama sessions, we develop children's self-awareness...

Since 2012, we have been organizing drama workshops where our students get together with drama experts two times a month. In cooperation with İstanbul Drama Sanat Academy, we aim to help the children enhance their self-improvement and self-expression and help them form stronger bonds with their schools.

We inspire parents with "Family Communications" seminars...

Since the first day of our Project, we have been implying the importance of "family" when it comes to stopping and preventing child labor. Therefore, in 2014-15 educational year, we introduced "Family Communications" seminars where we met with parents who force/encourage their children to work. Every year, we aim to continue to organize these seminars under the guidance of a professional counsellor. These workshops are intended to create an awareness about children's right to a proper education by having one on one chats with families.

Garanti Pension volunteers meet with our children...
